

ATROBAN® DELICE, SYNERGIZED DELICE®, DOUBLE BARREL™ AND SABER™ EXTRA INSECTICIDES

SYNERGIZED DELICE Pour-On Insecticide

- 1% Permethrin synergized with 1% Piperonyl Butoxide to increase insecticidal activity.
- Migrates over animal's skin and hair coat for maximum coverage.
- Use on lactating and non-lactating dairy cattle, beef cattle and calves, and sheep.

Administration and Dosage. Apply 1/2 oz per 100 lbs body weight up to a maximum of 5 oz per animal.

ATROBAN DELICE Pour-On Insecticide

- 1% Permethrin formulation provides safe, effective insect control.
- Convenient ready-to-use formulation.
- Use on lactating and non-lactating dairy cattle, beef cattle and calves, and sheep.

Administration and Dosage. Apply 1/2 oz per 100 lbs body weight up to a maximum of 5 oz per animal.

DOUBLE BARREL VP Ear Tags

- 6.8% Lambdacyhalothrin and 14% Pirimiphos Methyl.
- Two different active ingredients minimize development of insect resistance and reduce need for ear tag rotation.
- Unique triangular shape prevents tag from breaking off at the neck.

SABER EXTRA Ear Tags

- 10% Lambdacyhalothrin and 13% Piperonyl Butoxide.
- Advanced-generation pyrethroid plus synergist provides increased insecticidal activity.
- Easily applied and stay in the ear for the life of the tag.

Fight Flies with a Full Line of Proven Fly Control Pour-Ons

SABER™

- Only cattle pour-on with **Lambdacyhalothrin**, which has twice the bioactivity of common insecticide ingredients.*
- Greater than 90% efficacy for 7 weeks against horn flies.*
- Lasts longer than 1% Permethrin pour-ons, Ivomec® or Cylence®.*
- Integrated measuring/dosing chamber reduces risk of errors and human exposure.
- For all classes of beef cattle.

Administration and Dosage. Apply product down midline of back at the rate of 10 mL (1/3 oz) per head for cattle weighing less than 600 lbs, 15 mL (1/2 oz) for cattle weighing more than 600 lbs.

BOSS®

- Concentrated 5% **Permethrin** in low-volume dosage minimizes labor and maximizes control.
- Efficacy ranges from 87% to 100% for 4 weeks against horn flies.* Also controls face flies.
- No preslaughter withdrawal and no milk discard.
- For all classes of beef cattle, dairy cattle, and sheep.

Administration and Dosage. Cattle: Apply 3 mL per 100 lbs body weight up to a maximum of 30 mL (1 oz) per animal. Sheep: Apply 1.5 mL per 50 lbs body weight up to a maximum of 18 mL per animal.

ULTRA BOSS®

- Fast-acting 5% **Permethrin** formulation with 5% **Piperonyl Butoxide** optimizes control.
- Effective horn fly control for 8 weeks.* Also controls face flies.
- No preslaughter withdrawal and no milk discard.
- For all classes of beef cattle, dairy cattle, and sheep.
- Now approved for horses and goats.

Administration and Dosage. Cattle and Horses: Apply 3 mL per 100 lbs body weight up to a maximum of 30 mL (1 oz) per animal. Sheep and Goats: Apply 1.5 mL per 50 lbs body weight up to a maximum of 18 mL per animal.
