

SAFE-GUARD® (fenbendazole) Canine Dewormer Dosing

Keep Dogs Safe by Controlling Intestinal Parasites

- The more time a dog spends outside, the greater the risk of infection.
- Proper dosing for canine parasites can help protect dogs, their owners, and the environment.
- SAFE-GUARD® (fenbendazole) is a proven effective way to keep your dog protected.

Six-in-One Protection

SAFE-GUARD® treats 6 different intestinal worm types common to outdoor dogs with only one compound, fenbendazole.¹

- **Tapeworms**
- *Taenia pisiformis*
- **Roundworms**
- *Toxocara canis*
- *Toxascaris leonina*
- **Hookworms**
- *Ancylostoma caninum*
- *Uncinaria stenocephala*
- **Whipworms**
- *Trichuris vulpis*

Proven Safety

- SAFE-GUARD® Canine Dewormer is safe even for puppies and pregnant dogs and has no known drug interactions.¹
- Dogs over six months of age should be dewormed at least twice a year with SAFE-GUARD® Canine Dewormer. For puppies younger than six months, see product label.

Help Find the Perfect Dose

- It is important to give each dog the perfect dose, and with SAFE-GUARD®, it's easy.

Application Instructions

1. Weigh your dog to make sure you are using the correct dosage.
2. Follow the box directions for daily dosage requirements.
3. Mix with food to help ensure your dog receives a complete and proper dosing.
4. Make sure your dog eats all of the medicated food. You may need to moisten your dog's dry dog food to aid mixing.
5. The same dosage must be administered for three consecutive days.

SAFE-GUARD® Canine Dewormer 1 gram

- A True
- B False

ANSWERS: 1. False / 2. B 1 box of SAFE-GUARD® (fenbendazole) Canine 2 gram / 3. True

IMPORTANT SAFETY INFORMATION:

For animal use only. Do not use in pups younger than 6 weeks. Do not deworm a dog or puppy that is sick. Approximately 1% of dogs had vomiting associated with the use of this product. Consult your veterinarian for help in the diagnosis, treatment and control of parasitism.

¹SAFE-GUARD Canine Dewormer has no known interactions and is an ideal complement to monthly heartworm prevention products, which may not protect against all four major types of intestinal worms.
