

TAGGING SERVICES

TRAINING

Biomark

Biomark **Tagging Services Training**, offers technical and tagging workshops at locations all over the world. These workshops are designed to be interactive and provide customized information most relative to the group we are presenting to regardless of their experience with RFID technology and PIT systems. Each workshop includes tagging demonstrations, hands-on tagging instruction, and an introduction to antenna systems.

TOPICS COVERED

- PIT Tags & Readers
- Antennas System Demonstrations
- System Technicalities
- Tagging Technicalities
- PIT Tag History
- Software Review
- System Examples

If your organization or collaborative group might benefit from a workshop in your region, please contact us!
